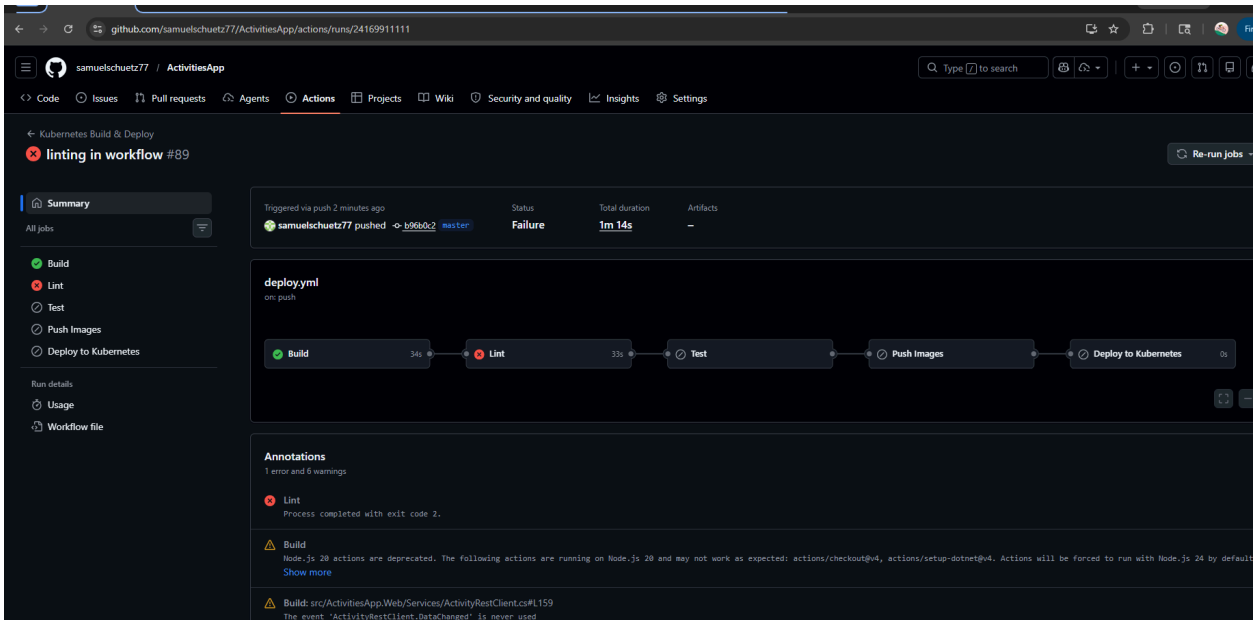
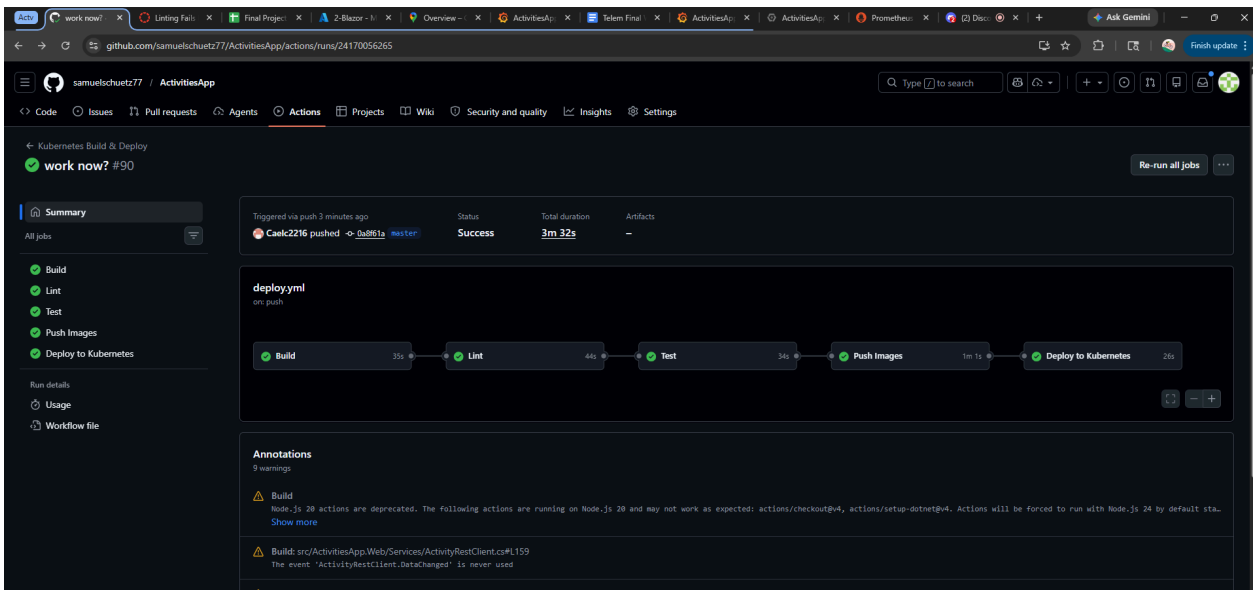
Assignment: Linting Fails Pipeline

Workflow fails went lint fails



Workflow healthy when linting passes



Lint job in workflow:

ActivityModelTests.cs | Program.cs | deploy.yml | GooglePlaceT...apperTests.cs

branches

```yaml
      - name: Build Web
        run: dotnet build src/ActivitiesApp.Web/ActivitiesApp.Web.csproj -c Release

  lint:
    name: Lint
    needs: build
    runs-on: ubuntu-latest
    steps:
      - uses: actions/checkout@v4

      - name: Lint API
        run: |
          docker run \
            --rm \
            -u $(id -u):$(id -g) \
            -e DOTNET_CLI_HOME=/tmp/dotnet-home \
            -e HOME=/tmp \
            -e NUGET_PACKAGES=/tmp/nuget-packages \
            -v .:/app \
            -w /app \
            mcr.microsoft.com/dotnet/sdk:10.0 \
              dotnet format --verify-no-changes src/ActivitiesApp.Api/ActivitiesApp.Api.csproj

      - name: Lint Web
        run: |
          docker run \
            --rm \
            -u $(id -u):$(id -g) \
            -e DOTNET_CLI_HOME=/tmp/dotnet-home \
            -e HOME=/tmp \
            -e NUGET_PACKAGES=/tmp/nuget-packages \
            -v .:/app \
            -w /app \
            mcr.microsoft.com/dotnet/sdk:10.0 \
              dotnet format --verify-no-changes src/ActivitiesApp.Web/ActivitiesApp.Web.csproj
